REYHAN SEPTRI ASTA

MOBILE DEVELOPER / FLUTTER

Jakarta, Indonesia | reyhanseptri@gmail.com | +62 813-7885-0755
LinkedIn | GitHub | Portfolio

PROFILE

Mobile developer with more than three years of experience building and maintaining Flutter applications for Android and iOS. Experienced in state management, REST API integration, mobile releases, and Flutter Web. Also experienced in backend API development with Go.

TECHNICAL SKILLS

Mobile & architecture: Flutter, Dart, Android, iOS, Flutter Web, Provider, BLoC/Cubit, GetX, MVVM, Clean Architecture
Backend & integration: Go, Laravel, PHP, REST APIs, WebSocket, Dio, Firebase, PostgreSQL, Xendit
Other tools: JavaScript, React, Python, Git, Android Studio, Xcode, Figma, Jira, Postman, Insomnia

PROFESSIONAL EXPERIENCE

Mobile Developer (Contract) | PT CKL Cargo Aug 2023 - Present

- Develop and maintain Flutter HRIS and driver-management apps for HR and logistics operations.
- Publish Android and iOS releases and work with design, backend, and QA teams to deliver features and fixes.
- Apply Provider, BLoC/Cubit, MVVM, and Clean Architecture; use Firebase Crashlytics to investigate issues and adapt a mobile app for Flutter Web.

Mobile Developer (Freelance) | Astabyte Oct 2024 - Jul 2025

- Developed and deployed an Android and iOS spa-booking app with Xendit in-app payments.
- Collaborated with designers and backend developers on feature integration and app stability.

Mobile Developer (Intern) | Loker Programmer Jul - Oct 2023

- Built and improved Flutter Android features using GetX and REST API integration.

Mobile Developer (Intern) | Mobile Innovation Nov 2021 - Jan 2022

- Prototyped a Flutter mental-health app with designers and a business analyst, using Provider, MVVM, and REST APIs.

EDUCATION

Telkom University - Bachelor of Informatics, 2019 - 2023 | GPA: 3.69/4.00

TRAINING

Altera Academy - Flutter Mobile Developer, Feb - Jul 2022. Collaborated across mobile, web, backend, and QA on a Flutter app using Provider, Firebase, and REST APIs.
